Aldara pump pack instructions for solar damage.

- Treatment area (.....)
- Apply cream once daily, on Monday, Wednesday and Friday for 4 weeks: 12 applications.
- Each pump pack has approximately 24 full depressions. 2 depressions should be enough to treat the forehead, nose and upper cheeks.
- Plan and distribute the cream in very small dobs carefully around the treatment area before rubbing in. Very little cream is required.
- Return for review if the reaction becomes very angry.
- Return for the doctor to assess the response to treatment after 8 weeks.
